

How To Apply for a Courtesy IDX Feed (Broker/Agent)

PLEASE NOTE: The designated broker for your office MUST first log into Bridge to allow access to agents from your office. This allows Bridge to assign your broker as a signing party to your four-way data access agreement. If your designated broker has not yet logged into the system, you will see an error message explaining that this step must be completed.

1. Go to www.miamirealtors.com.
2. Click on the Miami Gateway and log in with your MLS Credentials.
3. Access the Bridge Agreement Management Dashboard and create a new IDX agreement. **(Commercial Dashboard's must click on Home to find Bridge)**

A screenshot of the BRIDGE Agreements dashboard. The top left shows the BRIDGE logo and the word "Agreements". The top right shows the user name "Malaine Neptune" with a dropdown arrow. The main content area has two light blue panels. The left panel is titled "Create a new agreement" and contains a document icon, the text "If you'd like to execute an agreement with your data provider or a software vendor in your market, click below", and a green button labeled "Create new agreement" which is highlighted with a red rectangular box. The right panel is titled "View existing or waiting agreements" and contains a document icon, the text "If you want to review your existing agreements, or see all the agreements that are waiting for you to complete, click below", and a green button labeled "View existing agreements".

4. If no Third-Party Vendor is involved, create an agreement under **Member Data License Agreement – No Third-Party Vendor**

- Once the agreement and the application has been approved you will **click API Access at the top of Bridge and show the tokens you will provide to your web developer/vendor.**

The screenshot shows the BRIDGE user interface. At the top, the navigation bar includes 'BRIDGE', 'Data Access', 'API Access' (highlighted with a red box), 'Share Data', 'API Usage', and 'Agreements'. Below the navigation bar, the page title is 'API Access for [redacted]'. On the left side, there is a sidebar menu with 'API Access Tokens' (selected), 'Application Settings', 'Application Profile', and 'Messages'. The main content area is titled 'API ACCESS TOKENS' and contains a table with the following rows:

Field	Value
Client ID	[redacted] Show Token
Client Secret	[redacted] Show Token
Server Token	[redacted] Show Token
Browser Token	[redacted]
Referrer Domains	None specified
IP Whitelist	None specified

A red box highlights the 'Show Token' buttons for Client ID, Client Secret, and Server Token.

NOTE: Once your broker approves the agreement, please allow a period of 24 to 48 hours for the approval process to be completed.
